5/5 stars

Starchaser is an adventure act full of creativity, belief and imagination. It is based on a star called Atlia, a dying star that holds the key to the thing that the main character, Catta, wants most – her parents to be brought back to life. With the company of her trusty Star Guide, she is pursued by a Meermonkey with a bad sense of humour, an evil lion that can't laugh and a Space Hunter that is for some reason after her tears.

The show has beautiful animation, and a heart-warming storyline that shows that not all birthday wishes are for presents. This show has a very good setting as well, and is for all ages of understanding. I would like to thank the actors for presenting such an awesome fantasy and sci-fi show. I loved it and want to give this a 10/10. I also hope Arena, the makers put on another one of these.

Lally Katz, the author, is a beautiful writer. Thankyou so much for putting this cool play on!
